* Lay Abstract of Research Project and Outcomes (IMPORTANT: This will be shared publicly with donors that contributed to your project)

Limited to 3,000 characters (including spaces). Please provide a clear, concise and comprehensive overview of the research progress in language suitable for a non-scientific audience of cancer patients/survivors. Describe the purpose of your study, the overall (cumulative) findings, conclusions, how the project has contributed to your field of cancer research, and how the results will help cancer patients in the future. Do not use abbreviations unless absolutely necessary.

(Do not exceed 5000 characters, including spaces)

* Scientific Summary of Research Project and Outcomes

Summarize the scientific and technical details of the study and how they contribute to the conclusions and impact of the Research Project overall. Include how it has advanced or contributed to the body of scientific knowledge about NET cancer or its treatment. (Question pertains to the entire grant term.) Also describe any lessons learned while planning, designing or implementing this Research Project that would be helpful to share with others conducting similar research.

(Do not exceed 10000 characters, including spaces)

* Below, please briefly describe significant findings, progress towards meeting proposed benchmarks, or any problems/challenges that arose during this reporting period. Please attach any figures or data in the Upload section.

Milestones:

Enter your progress on your Milestones Tracking Document (Download form, fill it in and reupload in the Upload section).

(Do not exceed 10000 characters, including spaces)

Publications:

For manuscripts accepted/in press please enter citation information in the Publications Section. Provide PMID and DOI information if/when available. If you update this information in your ORCID profile you can simply transfer it directly into your PC report.

Also, answer the following below:

- 1) Enter Number of Manuscripts Accepted/In Press:
- 2) Enter Number of Manuscripts Submitted/Under Review:
- 3) Enter Number of Manuscripts in Preparation:

(Do not exceed 5000 characters, including spaces)

Funding:

If you received any additional funding based on your work, enter the information in the Other Support Section. If you update this information in your ORCID profile you can simply transfer it directly into your PC report.

Also, please list any additional application(s) for funding based on your work:

- 1) Funding agency/Amount/Duration:
- 2) Etc.

(Do not exceed 5000 characters, including spaces)

Career Advancement:

If you advanced your career since the start of the award, please describe promotion and new title below:

(Do not exceed 5000 characters, including spaces)

Awards:

If you received any awards since the start of this grant, enter them and their descriptions below:

(Do not exceed 5000 characters, including spaces)

Meeting/Invited Presentations

If you have presented any work from this project at conferences/scientific meetings/invited talks, please list the meeting(s)/date(s)/location(s) below:

(Do not exceed 5000 characters, including spaces)

NET Resources/Sharing

Has your project generated data or datasets that benefits the NET scientific/clinical community? If so, please enter in the Data Sharing Section.

Has your project generated other resources that benefits the NET scientific/clinical community (e.g. DNA probes, animal models, cell lines, novel therapeutics, risk assessment tools)?

If so, please list the reagent or resource and describe Sharing Plan for how it can be accessed, if applicable:

(Do not exceed 5000 characters, including spaces)

Patents and Intellectual Property:

If your project generated any discoveries that are, or may be, patentable, or otherwise protectable under applicable law in the course of the research funded through this grant, please enter information in the Invention Section.

Also describe the type of protection below (e.g. Intellectual Property, Patents, Provisional Patents, etc.) and include:

Title (s):

Date Filed:

Date approved:

ID Number

List any companies formed from technologies arising from the Project:

(Do not exceed 5000 characters, including spaces)

Clinical Trials (if applicable)

Has your project contributed towards the conduct of a clinical trial?

If so, please enter the following information:

Identifier (NCT#, Protocol ID):

Title of Trial:

Trial Description:

Start Date-Closure Date:

Number of Patients Enrolled:

Target Accrual Date:

Date of Protocol Documents:

(Do not exceed 5000 characters, including spaces)

Collaborations

Please list any new collaborations or collaborative projects that have resulted from your project. Provide the following information:

Name of Collaborator (if applicable)

Institution/Organization/company Name

Nature of collaboration

(Do not exceed 5000 characters, including spaces)

Publicity:

Has your institution prepared any press releases, newsletter articles, etc., to promote your receipt of this grant or to announce any research findings emanating from the Research Project? If so, please enter the following information and upload a copy for NETRF:

Type of Publicity (e.g. press releases, newsletter articles, etc.):

Description of Publicity:

Date Released (to be released):

(Do not exceed 5000 characters, including spaces)

*Upload

Please upload your attachments (Figures and/or tables) that should be included with your Description of Report Periods Activities.

Allowable File Types: .pdf

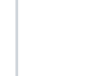

[Click here to browse and upload file.](#)
File size must be 150 MB or less.

Other Support

Please include any additional funding that you have received during this reporting period to support this research?

No Other Support to report

Status	Award Number	Funding Source	Title	Source	Action
--------	--------------	----------------	-------	--------	--------

Publications

Please include any manuscripts that have been accepted for publication since the last reporting period.

No Publications to report

Citation Year	Status	PMID	Title	Journal	Source	Action
---------------	--------	------	-------	---------	--------	--------

Inventions

Has your project generated any discoveries that are, or maybe, patentable, or otherwise protectable under applicable law in the course of the research funded through this grant?

No Inventions to report

Date	Title	Status	Owner	IP Protections	Licenses	Source	Action
------	-------	--------	-------	----------------	----------	--------	--------

Data Plan

Note: The Data Plan or Opt Out tab selection is based on your last submission, if submitted before. To change the tab selection and its details, 1) use the Clear button in the current tab to remove the saved data 2) Select the Data Plan or Opt Out tab and enter data appropriately.

Data Plan

Opt-Out

List Resource and Sharing Plan for how it can be accessed, if applicable.

Has your project generated resources that benefits the NET scientific/clinical community (e.g. DNA probes, animal models, cell lines, novel therapeutics, risk assessment tools)?

0 out of 3000 characters

Approximate date of when the data will be shared.

Please explain any limits to data sharing that might be required.

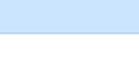

0 out of 3000 characters

Confirmation of Data Deposits.

Where will the data be made available? Select all that apply.

Repository List - Options

- ArrayExpress
- BioModels
- CellML
- ClinicalTrials.gov
- ClinVar
- COSMIC
- Culture Collections
- database of Genotypes and Phenoty
- Dataverse (general)
- Electron Microscopy Data Bank (EM)

Repository List - Selected

- GitHub (source code)
- NCBI GEO Datasets
